# Unlimited Earth Care

Offering Unlimited Possibilities for the Season's Most Sustainable and Stylish Landscape Designs

BY LAUREN BENS

PHOTO BY DOUG YOUNG

make a plan—see what's native to your area and what type of soil you have and decide what kind of experience you want to create. Spring is the time to get to work as the soil thaws, and also the best time to come visit our Garden Market and find native and well-adapted plants and flowers. It's always a good time to visit UEC and begin design discussions or find that perfect sculpture, tree, or piece of furniture to brighten your space."

Frederico designs with the needs and properties of each landscape in mind. "Beautiful results come from healthy gardens."

Azevedo is known for his personalized and thoughtful approach that he gives to each project. He considers the lifestyle of his clients, while incorporating his signature colors and curving floral borders.

Frederico's aesthetic is all about color.

"The way that I understand the power of a garden is balance: flowers are beautiful, and I heighten the experience by planning color palettes that influence different moods and experiences. My meadows are a good example of my approach—their colors move in the wind, attract pollinators, and are more sustainable."

In addition to design, Unlimited Earth Care is focused on maintenance, which is what ultimately allows a garden to flourish.

Unlimited Earth Care's Bridgehampton headquarters is home to the Garden Concept Store, which carries unique planters, art objects, and accessories for the modern garden. The adjacent

Garden Market carries a curated selection of native and well-adapted plants and flowers.

Unlimited Earth Care invites our readers to celebrate their 30<sup>th</sup> Anniversary on June 24<sup>th</sup> at the Garden Market at 2249 Scuttle Hole Rd, Bridgehampton. Everyone is invited for good music, cocktails, and hors d'oeuvres—cheers among the flowers to 30 years of beautiful, sustainable garden design. **P**

Now that the warmer months are upon us, homeowners are gearing up to get their landscapes noticed, and no one makes a garden look—or feel—happier and healthier than Frederico Azevedo, the founder of Unlimited Earth Care, which has been cultivating sustainable and award-winning gardens for three decades.

Unlimited Earth Care is a full-service garden and landscape design firm based in the Hamptons that offers maintenance, transplanting, installation, and lawn and hedge care services. According to Frederico, each season has its own unique timeline for preparation and growth.

"Fall is the time to plant bulbs to enjoy in early spring as the chill breaks," says Azevedo. "Meanwhile, winter months are the perfect time to enjoy the evergreens, find inspiration, and
