Unlimited Earth Care Debuts the HideOut Cabana

Founder of Unlimited Earth Care Frederico Azevedo invited the Hamptons' brightest to his headquarters and garden concept store in Bridgehampton to introduce his new HideOut Cabana. The HideOut Cabana is an abstraction of a dwelling, an adaptable space that's perfect for privacy and entertaining. It will be available for purchase fully constructed in clear cedar, or, in the spirit of accessible design, the plans for the HideOut Cabana are also available for purchase. Ten percent of the sales of the cabana will go to Habitat for Humanity to support the incredible work they do here in the Hamptons.
