Award-winning landscape designer Frederico Azevedo is the owner of Unlimited Earth Care, Inc. based in Bridgehampton, Long Island, New York. Born in Porto Alegre, Rio Grande do Sul, Brazil in 1962, Azevedo has studied landscape design in Brazil, England, and the U.S. He is a member of the Association of Professional Landscape Designers, the American Horticultural Society, and the Horticultural Alliance of the Hamptons.

Frederico Azevedo designs and executes most of his projects in the Hamptons. Considered one of the most beautiful natural landscapes in the world, the Hamptons is a unique mix of farms, fields, woods, dunes, lakes, ponds, bays, and ocean. The exquisite natural light has been compared to that of the south of France, and has attracted renowned artists from around the world. This marvelous combination has made the East End of Long Island a magnet for the rich and famous for well over a century, and its unique architecture and landscape design is greatly admired worldwide.

*"My design is calm with a presence of color, romantic and structured all at the same time. The use of different textures and heights with shades of grey and green in dark blue metallic planters with uniform shapes but different textures will make the design simple and ultimately elegant."*
