## BLOOM

The Luminous Gardens of  
Frederico Azevedo

BY FREDERICO AZEVEDO

*Bloom: The Luminous Gardens of Frederico Azevedo* presents the accomplished work of Frederico Azevedo—a leading landscape designer whose work carries an emphasis on flowers, which he uses to “lure the eye through the flow of the design.” This stunning body of work explores the hallmarks of an Azevedo garden, featuring his signature curving, floral borders, and his creative integration of native or well-adapted plants. He also often creates multi-dimensional vistas using layers of flowers, trees, grasses, shrubs, and hedges to dramatic effect. The results of his impeccable designs are soft and romantic, always sophisticated and well-executed, and most importantly, site-specific to the unique conditions of any environment. Discover the luminous world of Frederico Azevedo and his dazzling gardens.
